

NAME : A.Vignesh

REG NO : 192424136

COURSE : Programming in java

COURSE CODE : CSA0974

[1] QID: 12

Question : A loop skips the first element of an array while printing values. Identify the error in the loop and correct it.

```
public class Q12_LoopFix {  
    public static void main(String[] args) {  
        int arr[] = {1,2,3};  
        for(int i=0; i
```

```
Program : public class Q12_LoopFix{  
    public static void main(String args[])  
    {  
        int arr[]={1,2,3};  
        for(int i=0;i
```

Input : (no input)

Output :

1

2

3

[2] QID: 17

Question : A loop attempts to access characters beyond the string length, causing an exception. Fix the boundary condition.

```
public class Q17_Boundary {  
    public static void main(String[] args) {  
        String str = "Java";  
        for(int i=0;i  
Program : import java.io.*;  
import java.util.*;  
class Boundary  
{  
    public static void main(String args[])  
{  
        String str="java";  
        for(int i=0;i
```

Input : (no input)

Output :

j
a
v
a

[3] QID: 30

Question : A regular expression is incorrectly used to validate numeric strings. Identify the issue and correct the pattern.

```
public class Q30_Regex {  
    public static void main(String[] args) {  
        String str = "123a";  
        if(str.matches("[0-9]+")){  
            System.out.println("Digits");  
        } else {  
            System.out.println("Not Digits");  
        }  
    }  
}
```

Program :

```
public Class Q30_Regex{  
    public static void main (String args[]){  
        String str="123a";  
        if (str.matches("[0-9]+")){  
            System.out.println("digits");  
        }else{  
            System.out.println("not digits");  
        }  
    }  
}
```

Input : (no input)

Output : Error: No Java class definition found in submitted code

First Save: 2026-06-23 13:37:27

Last Save : 2026-06-23 14:09:36

[4] QID: 10

Question : The program contains an error in array declaration and initialization. Identify the syntax issue and correct it.

```
import java.util.Arrays;

public class Q9_ArrayDeclaration {

    public static void main(String[] args) {

        int arr[] = {1,2,3};

        System.out.println(Arrays.toString(arr));

    }

}
```

Program :

```
import java.io.*;

import java.util.*;

class Array

{

    public static void main(String args[])

    {

        int arr[]={1,2,3};

        System.out.println(Arrays.toString(arr));

    }

}
```
